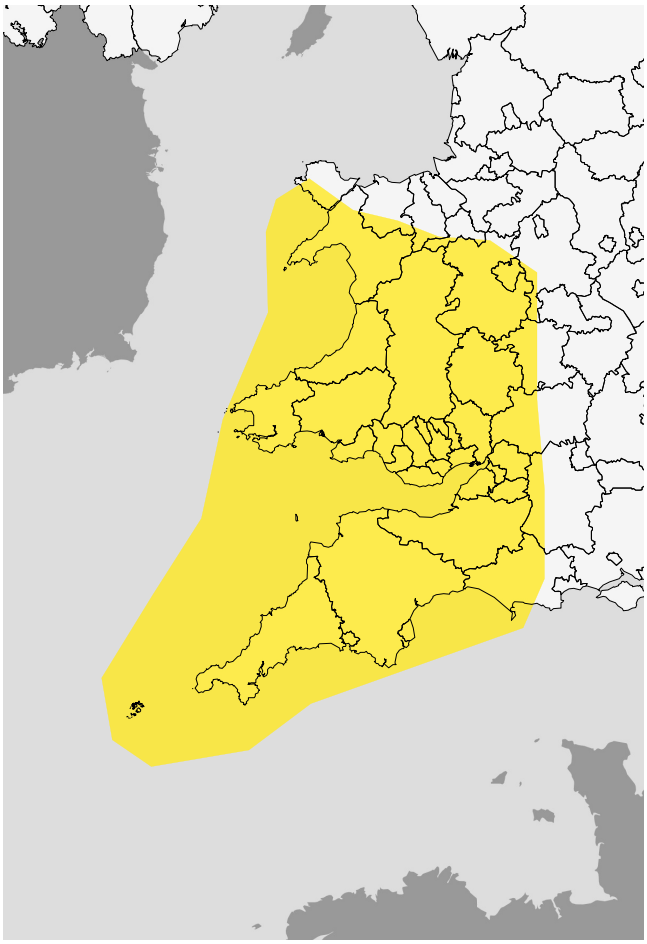
Yellow warning
Rain

Between
08:00 Mon 15 Jul 2024 and
23:59 Mon 15 Jul 2024



Heavy rain will affect parts of southwest England and Wales during Monday.

What to expect

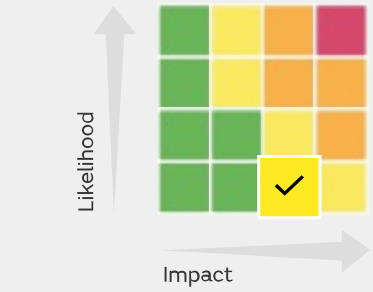
- Spray and flooding could lead to difficult driving conditions and possibly a few road closures
- Where flooding occurs, there is a slight chance of delays or cancellations to train and bus services
- There is a small chance that homes and businesses could be flooded, causing damage to some buildings

Further details

Outbreaks of rain, some heavy and thundery, already affecting southwest England, will spread northwards across Wales. A few areas could see 15 to 20 mm falling in less than an hour and perhaps as much as 30 to 40 mm in 3 or 4 hours, although some places are likely to see smaller amounts. Lightning may accompany some of the heavier rain.

The heavy rain will slowly ease after dark.

What should I do?



Very low likelihood of medium impacts

08:00 Mon 15 Jul 2024 and
23:59 Mon 15 Jul 2024

Further Details (continued)

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Northern extent across Wales reduced, and with slightly less widespread heavy rain implied.
